

## Basket Case

Green Day (1994)

[capo 2<sup>nd</sup> fret]

C                      G            Am            Em  
Do you have the time to listen to me whine,  
F                      C                      G  
About nothing and everything all at once.

C                      G            Am            Em  
I am one of those melodramatic fools,  
F                      C                      G  
Neurotic to the bone, no doubt about it.

F                      G                      C  
Sometimes I give myself the creeps.  
F                      G                      C  
Sometimes my mind plays tricks on me.  
F                      G            C            Bb            Am  
It all keeps adding up, I think I'm cracking up  
F                      G                      C  
Am I just paranoid? I don't know!

C                      G            Am            Em  
I went to a shrink to analyze my dreams  
F                      C                                      G  
She says, it's life of sex, that's bringing me down.  
C                      G            Am            Em  
I went to a whore, she said my life's a bore,  
F                      C                                      G  
So quit my whining cause it's bringing her down.

(Chorus)

F                      G            N.C.            C  
Grasping to control, so I better hold on!

(Chorus)
