

Whirlybirds, Choppers, Big Helicopters from *All About Helicopters* Larry Siegel

E  
Would you like to see your city,  
A  
From a brand new point of view,  
B7  
In a whirlybird, chopper, big helicopter  
E  
Flying right out of the blue?

They can land on top of a building,  
A  
Take off in the wink of an eye!  
B7  
Those whirlybirds, choppers, big helicopters,  
E  
Are easy to identify!

B7  
These birds can fly  
F#  
Straight up and straight back down  
B7  
From a big twin rotor, to a little whirlybird,  
F# B7  
To a news helicopter buzzin' over your town.

E  
Well, it's not exactly an airplane.  
A  
Once you see one, you'll understand why.  
B7  
That whirlybirds, choppers, big helicopters

E  
Are the coolest way to fly! (chorus & last verse)
