

# I'm a Believer

The Monkees (1967)

C                      G7                      C  
I thought love was only true in fairy tales,  
                                 G7                      C  
Meant for someone else, but not for me.  
F                      C                      F                      C  
Love was out to get me: that's the way it seemed,  
F                      C                      G7  
Disappointment haunted all my dreams.

N.C.                      C F C                      F                      C                      F C  
Then I saw her face, now I'm a believer.  
F                      C F C                      F                      C  
Not a trace of doubt in my mind.  
                                 F  
I'm in love. I'm a believer,  
                                 Bb                      G7  
I couldn't leave her if I tried.

C                      G7                      C  
I thought love was more or less a given thing,  
                                 G7                      C  
Seems the more I gave, the less I got.  
F                      C                      F                      C  
What's the use of trying? All you get is pain.  
F                      C                      G7  
When I needed sunshine, I got rain.

(Chorus)
